PROFESSIONAL SUMMARY

Early-career professional with a Political Science background and hands-on experience in data analysis, research, project work, and structured problem solving. Skilled in SQL, Python, Power BI, Excel, DAX, data cleaning, visualization, quantitative research, and communicating findings. Built four end-to-end analytics projects across business, healthcare, mobility, and retail datasets. Adaptable and seeking entry-level opportunities across Data Analytics, Business Analytics, Business Intelligence, Research, Operations, and other analytical roles.

TECHNICAL SKILLS

Tools & Languages: SQL (MySQL), Python (Pandas, NumPy), Microsoft Power BI, DAX, Power Query, Microsoft Excel

Core Competencies: Data Cleaning, Data Analysis, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, KPI Reporting

Research & Professional Skills: Research Methodology, Quantitative Analysis, Critical Analysis, Critical Thinking, Problem Solving, Project Coordination, Workflow Management, Communication

PROJECTS

Netflix User Analytics | SQL, Python, Power BI | github.com/Ashutosh-Jha07/Netflix-User-Analytics

- Analyzed user viewing behavior, subscriptions, content performance, and engagement end-to-end.
- Used SQL for business analysis, Python/Pandas for cleaning and EDA, and Power BI for interactive reporting.
- Translated viewing, genre, device, and subscription patterns into decision-focused insights and KPIs.

Healthcare Analytics (LifeLine Hospital Analytics) | SQL, Python, Power BI | github.com/Ashutosh-Jha07/LifeLine-Hospital-Analytics

- Built a healthcare analytics project using a synthetic dataset covering admissions, billing, insurance, and operations.
- Performed data preparation and analysis with SQL and Python and built interactive Power BI dashboards.
- Presented operational KPIs and trends to support data-driven interpretation of hospital performance.

Rapido Ride Analytics | SQL, Python, Power BI | github.com/Ashutosh-Jha07/RAPIDO-ANALYTICS

- Analyzed ride bookings, cancellations, revenue, demand patterns, and city-level operational performance.
- Queried data with SQL, performed analysis in Python, and developed executive-style Power BI dashboards.
- Identified peak-demand periods, cancellation trends, and city-wise performance patterns.

Superstore Sales Analysis | SQL, Python, Power BI | github.com/Ashutosh-Jha07/SUPERSTORE-ANALYSIS-E-COMMERCE-ANALYSIS-

- Performed retail sales, profit, customer, product, and regional analysis using transaction data.
- Applied SQL and Python for analysis and built an interactive Power BI dashboard covering business KPIs and trends.
- Converted transactional data into clear sales and profitability insights for decision-making.

PROFESSIONAL EXPERIENCE

Virtual Intern | Achhinjal (NGO)

July 2024 – August 2024

- Conducted research and gathered information for team presentations and reports, supporting structured decision-making.
- Supported daily operations and workflow coordination by organizing meetings, preparing materials, and assisting team activities.
- Contributed to a local fundraising and community-outreach initiative while working collaboratively with the team.

EDUCATION

Master of Arts — Political Science

Indira Gandhi National Open University (IGNOU) | Expected June 2027

Bachelor of Arts (Honours) — Political Science

Galgotias University, Greater Noida | May 2025 | GPA: 7.08/10

Relevant Coursework: Research Methodology (Critical Analysis, Quantitative Analysis)

High School Diploma — Humanities

Vivekananda International School, New Delhi

CERTIFICATIONS

- Microsoft Power BI Data Analyst — Microsoft (Coursera)
- Google Advanced Data Analytics Certificate — Google (Coursera)
- 3rd HMRS International Conference 2023 — India and Central Asia
- Peace Education Program Certificate — School of Liberal Education, Galgotias University (11-day program)
- Virtual Internship Certificate — Achhinjal NGO
